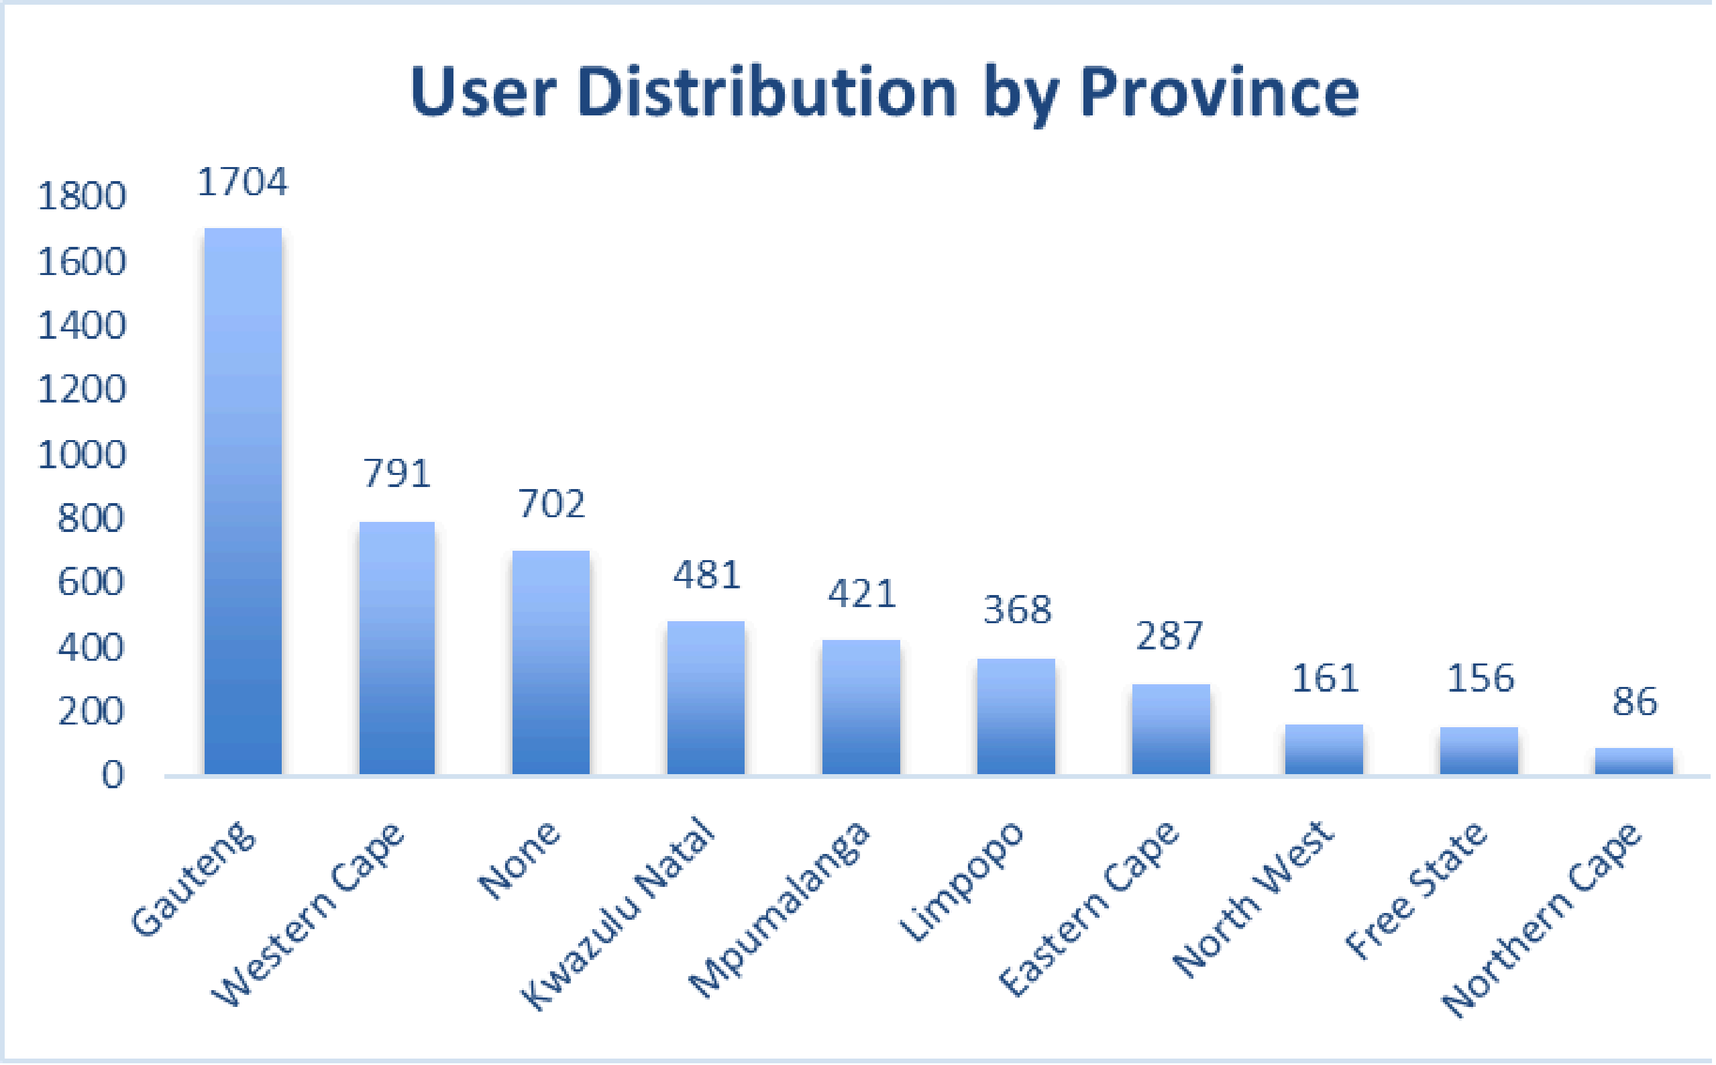
BRIGHT TV

BRIGHT TV Presentation

The World of Television Shows

Exploring Entertainment, Stories, and Audience Experience

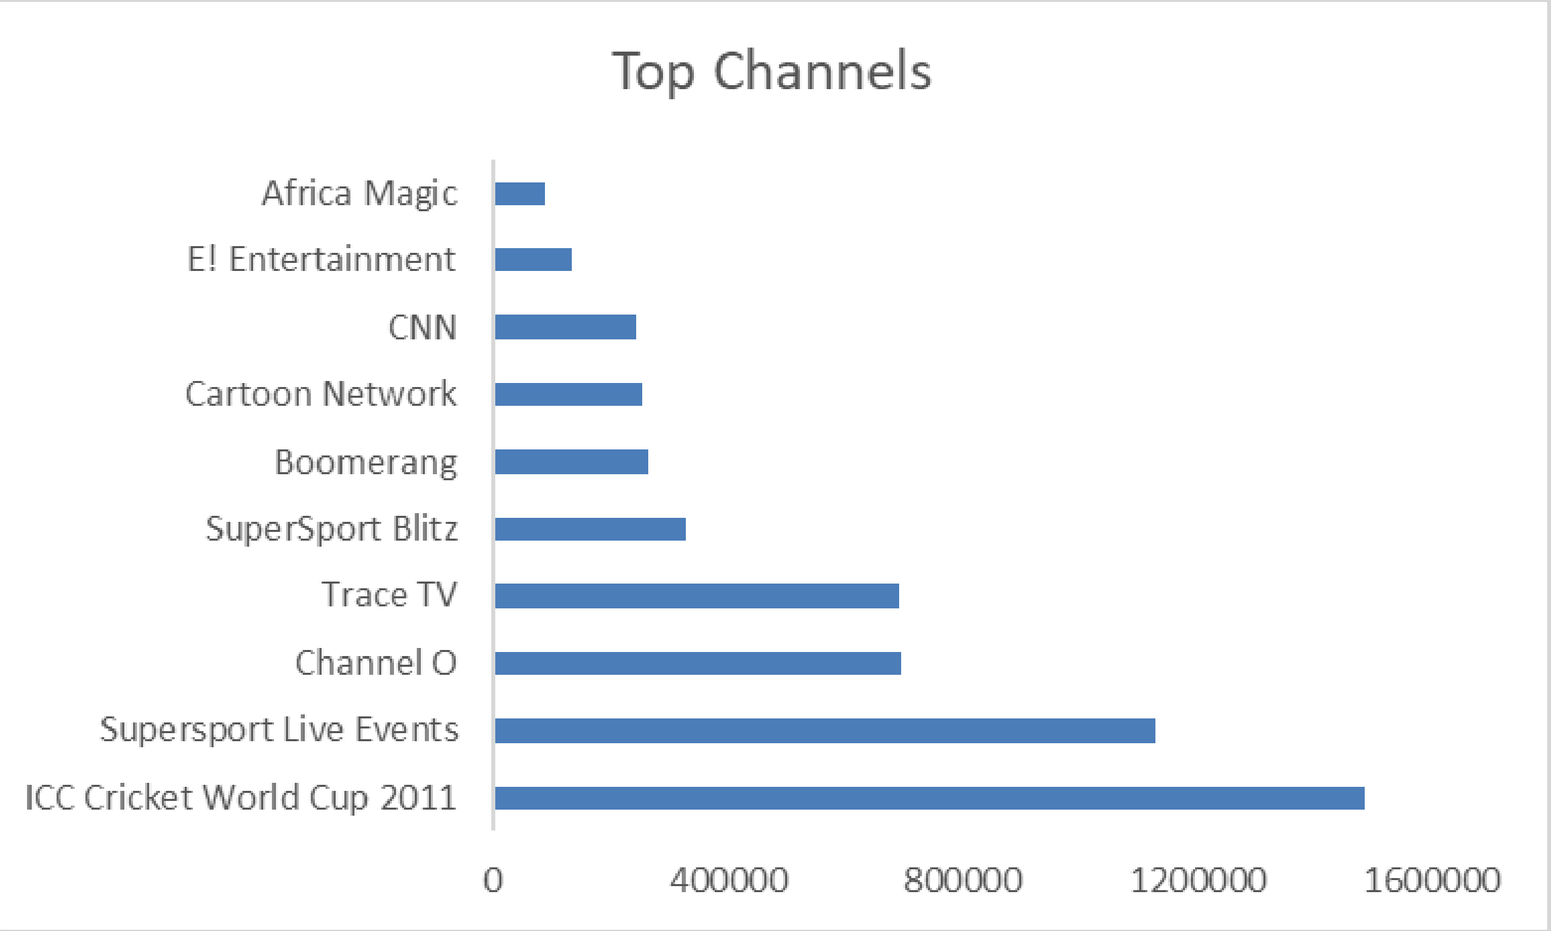
Presented By: **NJ MUNYAI**



INSIGHTS:

User distribution is concentrated in a few provinces, indicating key regions for targeted marketing and retention strategies.

CHANNEL PERFOMANCE



INSIGHTS:

A small number of channels drive the majority of watch time, showing strong content preference among users.

-Users don't watch everything

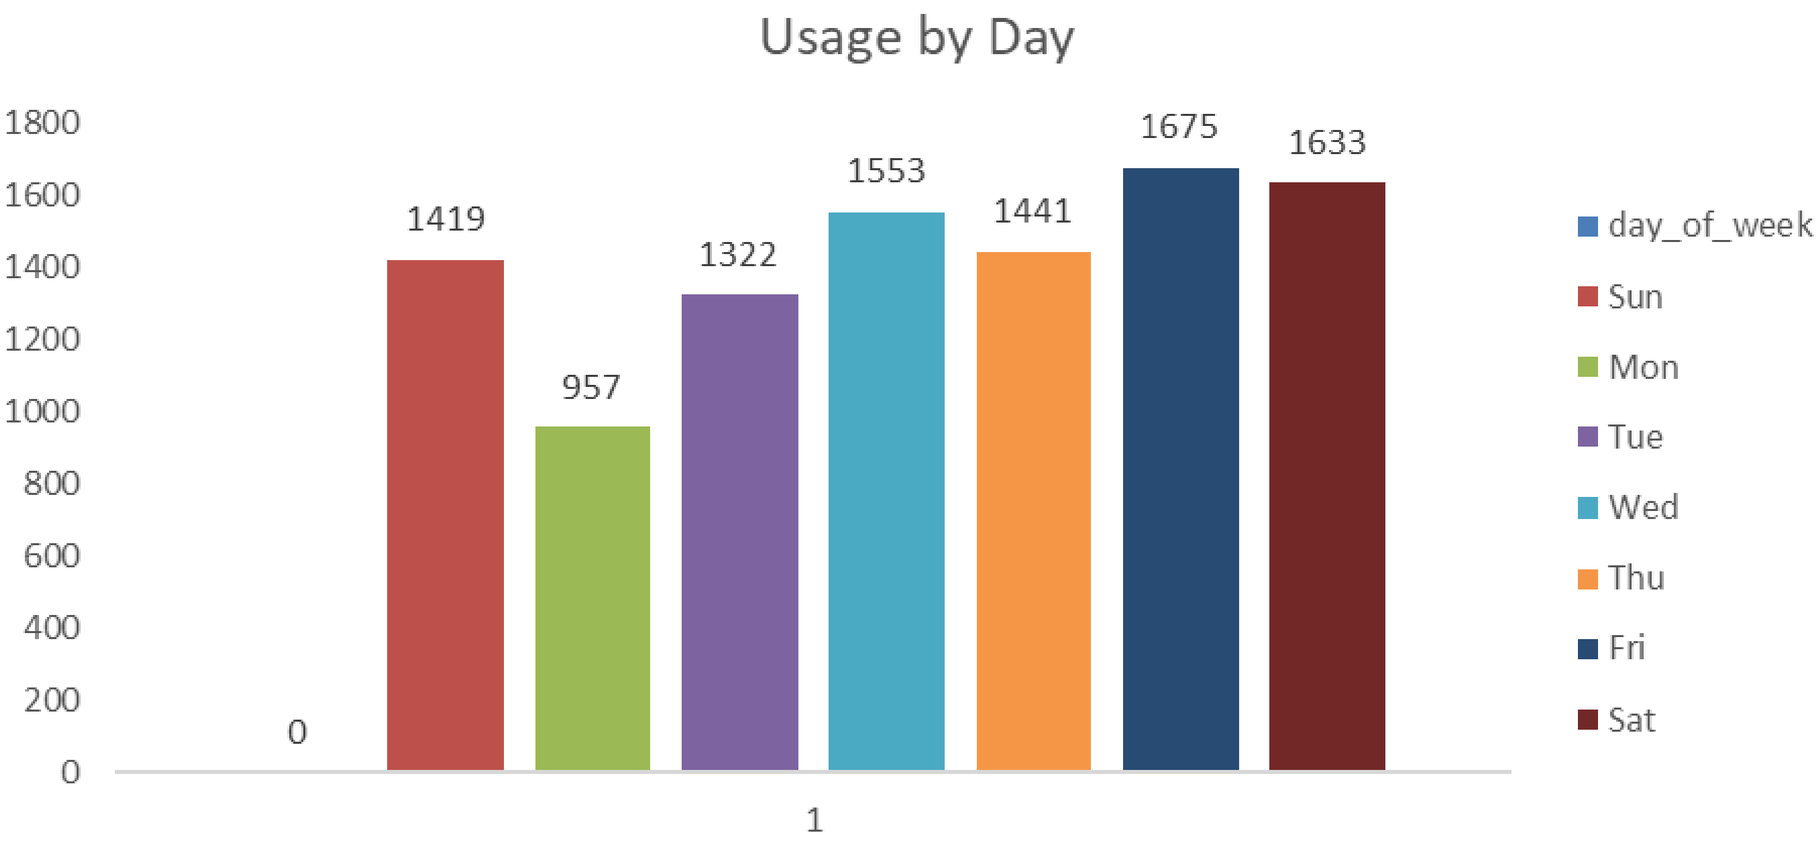
-They prefer specific content categories

RECOMMENDATIONS:

-Invest more in top channels

Create similar content

USAGE BY DAY



INSIGHTS:

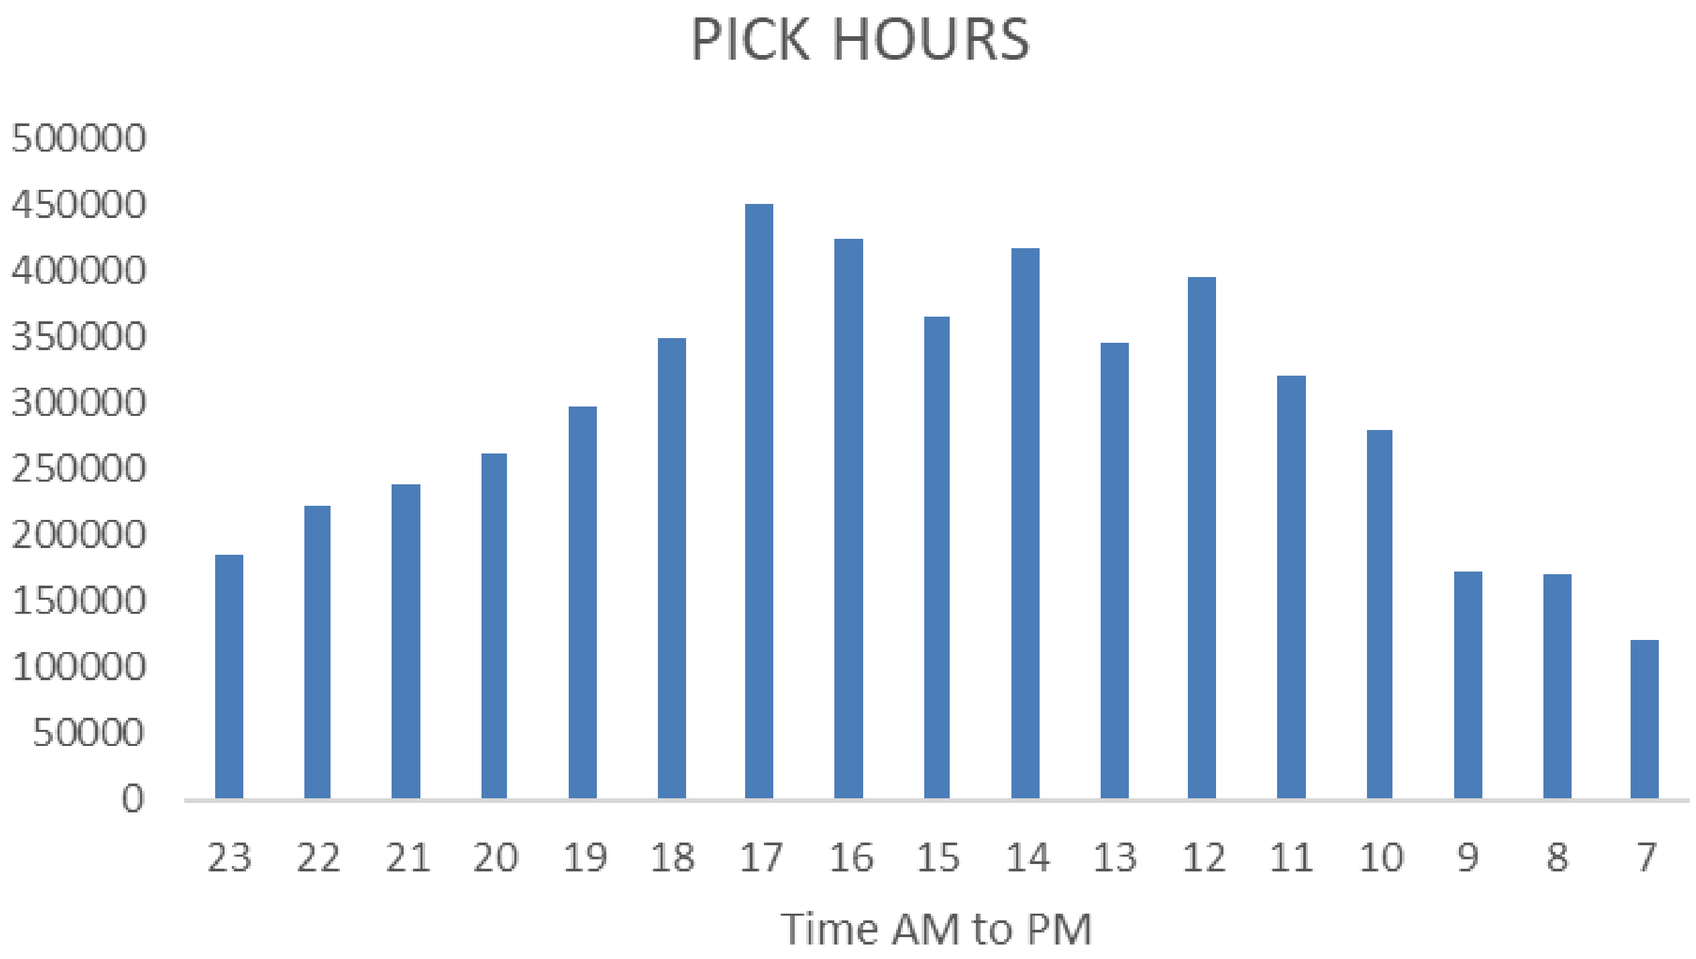
Viewership is concentrated around specific hours and days, with clear peak and low consumption periods.

-Users watch at predictable times

RECOMMENDATIONS:

-Promote content during low days

Core Components



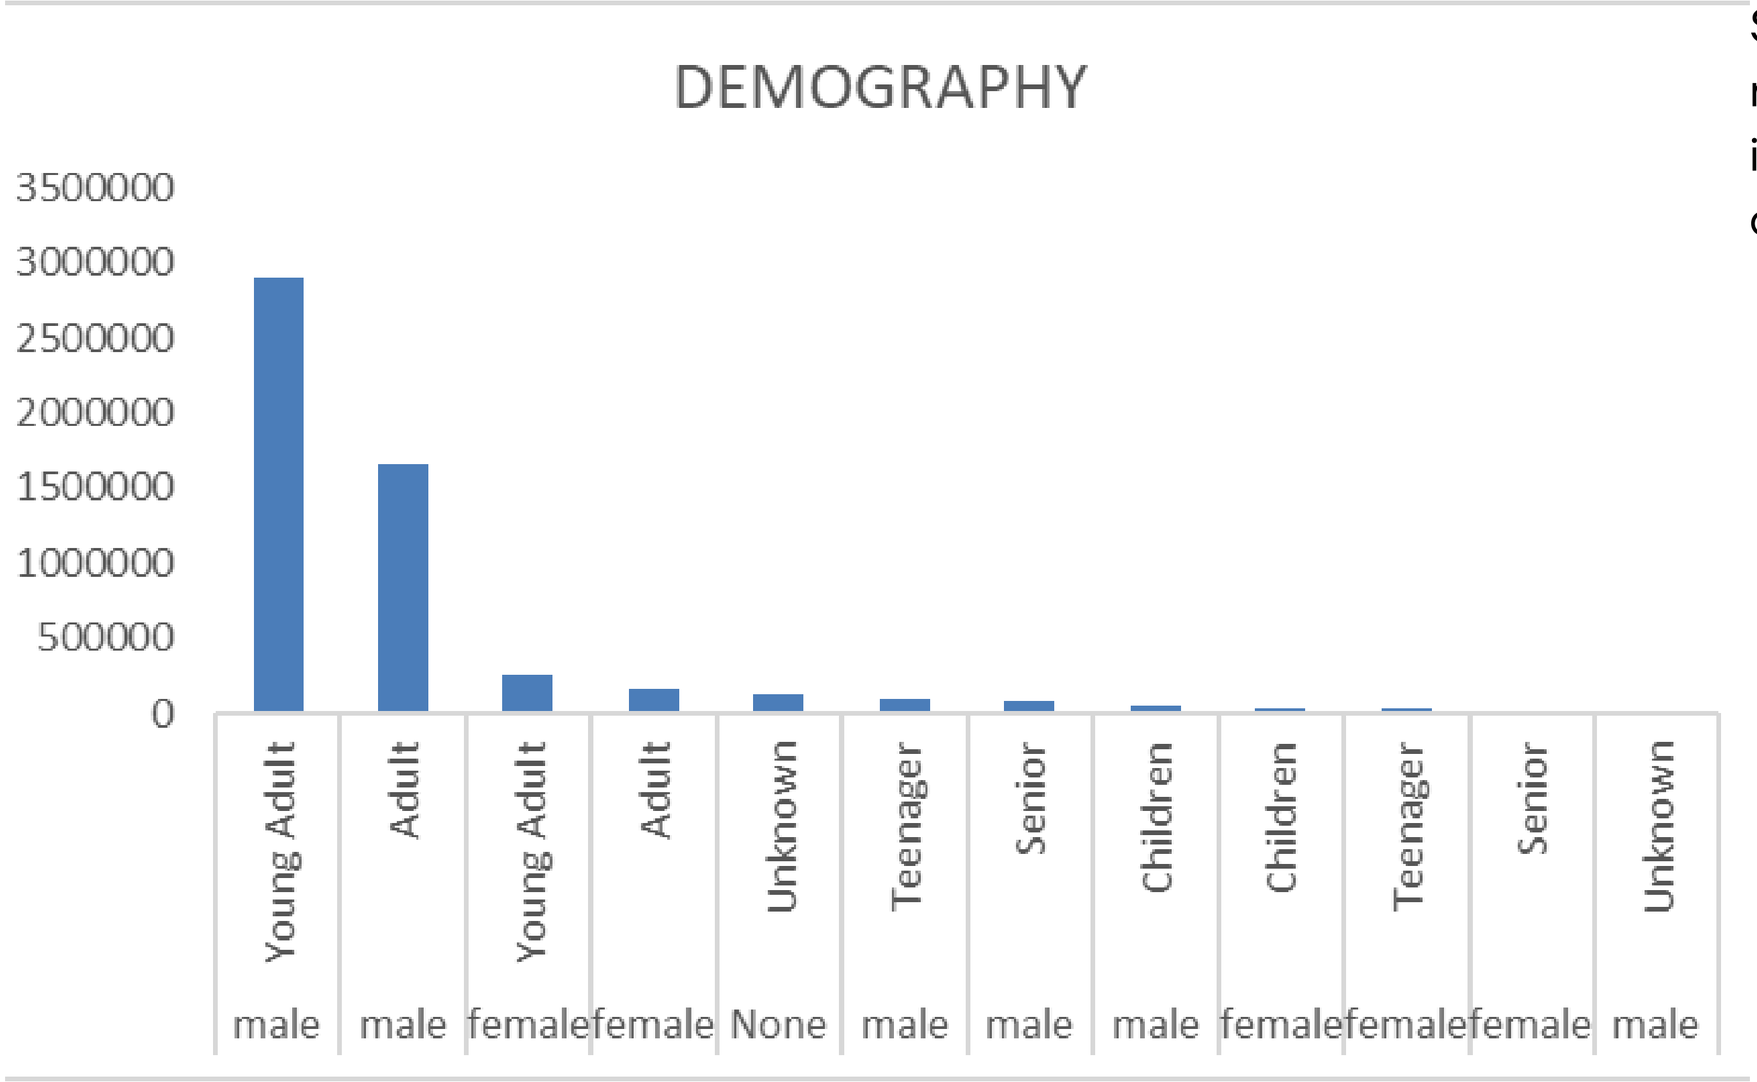
INSIGHTS:

Viewership varies across days and peaks at specific hours, highlighting optimal times for content release and low-engagement periods.

RECOMMENDATION:

Release content during peak hours

DEMEGRAPHY



INSIGHTS

Specific age groups contribute the majority of total watch time, indicating that engagement varies across demographic segments.

RECOMMENDATION:

Personalize content by age group
Tailor marketing campaigns

OVERAL RECOMMENDATION

The analysis shows that content preference is the strongest driver of consumption, supported by viewing time patterns, regional engagement differences, and demographic segmentation. By aligning content strategy, marketing efforts, and scheduling with these factors, BrightTV can significantly increase user engagement and grow its subscription base.
